<https://www.linkedin.com/in/nimesh-kavinda-karunasinghe>

### SUMMARY

Software Engineer with professional experience developing scalable web applications using React, Laravel, Node.js, PHP, and MySQL. Completed the Higher National Diploma in Information Technology with a 4.00/4.00 GPA. Experienced in full-stack development, REST APIs, authentication systems, AI integrations, and cloud-based applications through internships and freelance projects. Passionate about building secure, high-performance software while continuously learning modern technologies.

### TECHNICAL SKILLS

#### Frontend

React.js , Next.js , HTML5 , CSS3 , Tailwind CSS , Bootstrap , Framer Motion

#### Databases

MySQL, PostgreSQL, Redis, Firebase, Supabase

#### Tools & Development

Git, GitHub, Docker, Linux, Postman, Swagger/OpenAPI, Vite, npm, Composer

#### Architecture & Practices

Object-Oriented Programming (OOP), MVC Architecture, REST API Development, Agile Methodologies, Responsive Web Design, Software Development Life Cycle (SDLC)

#### Backend

Node.js, Laravel, Express.js, RESTful APIs, JWT Authentication, WebSockets

#### Authentication & Security

Firebase Authentication, Supabase Authentication, JWT Authentication, Role-Based Access Control (RBAC)

#### Cloud & Deployment

Vercel, Netlify, Firebase Hosting, CI/CD

#### AI & Automation

OpenAI API, Prompt Engineering, AI Integration, AI-Powered Application Development

### WORK EXPERIENCE

#### Full Stack Developer - Intern, Oxymai (PVT) LTD

09/2025 – 03/2026

Sri Lanka (Remote)

- Developed and maintained 12+ full-stack web applications using React.js, Node.js, RESTful APIs, and JavaScript, improving application functionality and user experience across multiple client projects.
- Improved application performance and scalability by 25%+ through Redis caching, database optimization, secure authentication, API integrations, and efficient backend development practices.
- Collaborated in Agile software development using Git/GitHub, code reviews, debugging, testing, and CI/CD practices to deliver secure, scalable, and high-quality software solutions

#### PHP Laravel Web Developer - Intern, Vampior Design

06/2025 – 09/2025

Kurunegala, Sri Lanka

- Developed 8+ responsive web applications using Laravel, PHP, MySQL, JavaScript, Bootstrap, and RESTful APIs, delivering scalable business solutions based on client requirements.
- Enhanced application security and backend performance by implementing authentication, role-based access control (RBAC), database optimization, API integrations, MVC architecture, and OOP principles.
- Worked collaboratively with development teams using Git/GitHub, Agile methodologies, testing, debugging, and code reviews, contributing to efficient project delivery and improved software quality.

Freelance Full Stack Developer

01/2024 – Present

- Delivered 10+ custom full-stack web applications using Laravel, React.js, PHP, JavaScript, MySQL, and RESTful APIs, meeting client requirements and project deadlines.
- Managed the complete Software Development Life Cycle (SDLC), including requirement analysis, system design, development, testing, deployment, and maintenance, ensuring successful project delivery.
- Optimized website performance, SEO, responsiveness, authentication, and third-party API integrations to build scalable, secure, and user-friendly web applications.

PROJECTS

WearIt - Virtual Try-On Chrome Extension  , | React.js, Chrome APIs, JavaScript, AI Integration

- Developed an AI-powered Chrome Extension using React.js, Chrome APIs, and OpenAI API to enable real-time virtual clothing try-on, improving user engagement and browser-based shopping experiences.
- Implemented AI integration, browser storage synchronization, and dynamic UI injection while optimizing performance, scalability, and reusable component architecture

HabitFlow - Habit Tracking & Subscription Platform  , | React.js, Firebase, Stripe, Socket.IO

- Developed a subscription-based SaaS web application using React.js, Firebase, Stripe, Socket.IO  , and REST APIs featuring habit tracking, analytics dashboards, and secure payment integration.
- Implemented real-time notifications, optimized database performance, and enhanced application scalability through efficient data management and secure authentication.

Fashora - E Commerce Platform  , | Laravel, PHP, MySQL, Bootstrap, JavaScript

- Developed a full-stack e-commerce platform using Laravel, PHP, MySQL, and RESTful APIs featuring authentication, product management, shopping cart, checkout, and role-based access control.
- Designed responsive user interfaces and optimized database performance, application security, and scalability by following MVC architecture and software engineering best practices.

Busy Book - Digital EBooks Library Platform  , | React.js, Node.js, Firebase, REST APIs

- Built a full-stack digital library platform using React.js, Node.js, Firebase, and REST APIs with secure authentication, protected routes, and personalized user dashboards.
- Developed advanced search, category filtering, and content management features while optimizing API performance, database operations, and responsive user experience.

EDUCATION

Higher National Diploma in Information Technology (HNDIT),

2022 – 2026

Sri Lanka Institute of Advanced Technological Education (SLIATE)

Kegalle, Sri Lanka

Graduated with Perfect GPA: 4.00 / 4.00

Certificates

Cloud computing for absolute beginners — CoDeKu DevOps Academy | Issued Jul 2025

Create Your First Python Program From UST  — Coursera Project Network | Issued Sep 2025

Business Analysis & Process Management  — Coursera | Issued Jun 2026

Python programming using Visual Studio Code — Microsoft | Issued May 2025

Achievements

- Graduated HNDIT with Perfect GPA (4.00/4.00)
- Delivered 10+ freelance software projects
- Built AI-powered full-stack applications

Languages

English — Professional Working Proficiency | Sinhala — Native
