SUMMARY

Results-driven web developer with strong expertise in modern web technologies, including React, PHP, and full-stack development. Proven ability to design and deliver scalable, high-performance, and user-centric applications, with a solid foundation in responsive design and clean code practices. Seeking a challenging role to contribute to impactful projects while driving technical excellence and continuous professional growth.

WORK EXPERIENCE

- Full Stack Developer, Oxymai (PVT) LTD**

09/2025 – 03/2026
Sri Lanka (Remote)

 - Delivered 12+ robust, high-performance web applications utilizing React.js and Node.js.
 - Built scalable task management platforms featuring complex Role-Based Access Control (RBAC) and real-time collaboration.
 - Integrated AI models to automate advanced media processing, including image and video manipulation.
 - Enhanced system responsiveness and minimized database latency by implementing Redis caching strategies.
 - Secured RESTful APIs and implemented enterprise-level user authentication flows using Firebase and Supabase
- PHP Laravel Web Developer Intern, Vampior Design**

08/2025 – 10/2025
Sri Lanka (Onsite)

 - Developed and maintained web applications using Laravel (PHP) and MySQL
 - Implemented REST APIs, authentication systems, and CRUD functionalities
 - Built responsive UI using Blade, HTML, CSS, Bootstrap, and JavaScript
 - Integrated third-party APIs and handled server-side logic and validation
 - Optimized application performance and contributed to UI/UX improvements
 - Used Git/GitHub for version control and team collaboration
 - Worked in an Agile environment with daily stand-ups and code reviews
- Freelance Software Developer (Self Employed)**

01/2024 – 09/2025

 - Completed 10+ web projects for local and international clients with 100% satisfaction.
 - Built responsive websites and portfolio platforms using JavaScript, PHP, and modern CSS.
 - Managed end-to-end project lifecycles, from requirement gathering to deployment and SEO.

PROJECTS

- Busy Book - Digital EBooks Library Platform**
- Designed and developed a scalable digital reading platform with personalized recommendations, optimizing user engagement through profile-based content delivery
 - Implemented secure authentication and protected routes using Firebase Auth, integrating REST APIs for efficient data management and seamless user experiences.

Fashora - E Commerce Platform

- Developed a full-stack fashion e-commerce application using Laravel, delivering a scalable and secure platform for product management, user interactions, and online purchasing
 - Implemented role-based authentication and core e-commerce functionalities, including shopping cart, checkout, and order management, with a fully responsive and user-friendly interface.
- Wearlt - Virtual Try-On Chrome Extension
- Developed a Chrome extension that detects apparel images on fashion websites and injects a "Try-On" feature, enabling users to preview garments through an AI-based interface
 - Implemented apparel detection logic with vocabulary-based scoring, integrated Chrome APIs for dynamic UI injection and navigation, and connected a React side panel using Chrome storage for seamless data flow

HabitFlow - Habit Tracking & Subscription Platform

- Designed and developed a habit tracking platform with analytics dashboards, streak tracking, and user activity visualization, enhancing user engagement and consistency
- Implemented subscription-based access control using Stripe, along with real-time updates using Socket.IO, and optimized data handling by migrating from Firestore to Firebase Realtime Database for improved performance and cost efficiency

EDUCATION AND CERTIFICATION

Higher National Diploma in Information Technology, 2022 – 2026
Sri Lanka Institute of Advanced Technology Institute
Expected completion end of 2026 | Transcript pending | Completed academic with 4.0 GPA

Kegalu Vidyalaya 2011 – 2020

- GCE Advanced Level - 3 S passes in Mathematics (Physics, Chemistry, Combined Math)
- GCE Ordinary Level - 9 A passes

TECHNICAL SKILLS

Frontend Development React.js, Next.js, TypeScript, JavaScript, Tailwind CSS, CSS3, State Management, UI/UX, Framer Motion, Recharts.js, EmailJS, Context API	Backend & APIs node.js, Express.js, System Design, REST APIs, WebSocket, Authentication, JWT, Web Security, RBAC, Encryption, API Hardening
Database Management PostgreSQL, MySQL, Redis, Database Design, ORMs, Sequelize, Data Caching, Firebase, supabase Auth, AWS S3, Firebase Auth	DevOps & Deployment Linux (Ubuntu), Docker, containerization, CI/CD pipelines, server setup and deployment
Version Control & Collaboration Git, GitHub, repository management, collaborative workflow	AI & Automation AI Agents, Copilot, Claude Code, AI Integration
